Concept Green Agro Organic Fertilizer

EFFICIENT, NATURAL, LEAF FERTILIZER

PLEASE NOTE: DO NOT MIX CONCEPT GREEN AGRO ORGANIC FERTILIZER WITH ANY OTHER FERTILIZER OR CHEMICAL FOR APPLICATION.

★ APPLY EARLY MORNING BEFORE SUN RISE OR LATE AFTERNOON ★ AVOID APPLYING DURING THE HOT HOURS OF THE DAY

USAGE:

- Mix 40grams of Concept Green Agro Organic Fertilizer with water in a 16-litre knapsack or motor blow and spray on the leaves of the plant or the vegetable for 3 consecutive times at 3 weeks interval.
- Leave the plant to grow naturally after that.
- Concept Green Agro Organic Fertilizer can be applied from the nursery stage of the plant or any other stage of growth.
- Spray on the leaves of the plant but not on the ground or the soil.
- Ensure you use clean potable water to achieve maximum benefit.
- Concept Green Agro Organic Fertilizer can be used whether other fertilizers have been used earlier or not.
- Concept Green Agro Organic Fertilizer is not poisonous; whether it is inhaled or tasted by mouth.
- For bigger plants like cocoa, coffee, cashew, mango, orange, yam, rice etc. Concept Green Agro Organic Fertilizer will give you early and bigger yield.

Foliar
